

# MINI MASON JAR LID WREATH

Transform Mason jar lid rings into beautiful miniature wreaths that double as festive ornaments and holiday gift toppers.

## Supplies:

- Mason jar lid rings
- Green paint
- Faux or preserved boxwood leaves (faux are included in the kit)
- Scissors
- Hot-glue gun and glue sticks
- Embellishments (small bells, pom-poms, mini ornaments, etc.)
- Twine

## Instructions:

1. **Paint Lid** with green paint to blend the Mason jar lids with the greenery. Before you paint your lids, lay down a drop cloth or newspaper to protect your work surface.
2. **Attach Greenery** - Trim enough sprigs of faux boxwood leaves to cover your Christmas ornaments. Using a hot-glue gun, glue small bunches boxwood to the Mason jar lid, overlapping them to hide the stems. Cover the front and sides completely with greenery.
3. **Add Embellishments** - Embellish your Mason jar ornaments with miniature jingle bells, pinecones, ribbon, or tiny ornaments. Use your hot-glue gun to attach them. Scatter the embellishments around the wreaths to create a one-of-a-kind DIY Christmas ornament.
4. **Attach Twine** - Tie twine around the wreath or glue ribbon to the back of the Mason jar lid for a hanger.
5. Lastly, hang the ornament on your tree or attach it to a present. Save the Mason jar ornaments to reuse year after year.
